

core components

The diagram consists of three main sections. At the top is a solid-line rectangle labeled 'core components'. Below it is a dashed-line rectangle labeled 'communication patterns', which contains four squares: the second square from the left is solid, while the others are dashed. At the bottom is another dashed-line rectangle labeled 'communication modules', which contains five squares: the third square from the left is solid, while the others are dashed. A solid-line L-shaped bracket on the right side connects the top and middle sections.
